Services to discuss

Building exteriors, entrances and walkways, restaurant patios, retail and office properties, shared community spaces, and other commercial exterior surfaces. The material, condition, access and requested outcome determine the proposed scope.

Vendor paperwork

W-9 available on request. Certificate of insurance provided with the first bid. Send your vendor registration requirements with your inquiry. Tax documents and insurance certificates are supplied directly, not published in this sheet.

Preparing your bid

Send the property address, areas to clean, site photos and preferred work window. Include access restrictions, water access, tenant or resident requirements, and any board or purchasing deadline. Request any completion photos or reporting you need.

Scheduling and maintenance

Discuss one-time cleaning or recurring care. Scope, frequency, access, price, payment terms and scheduling are agreed for your property before booking. An inquiry does not enroll you in a subscription or contract.
